

LAPORAN ASESMEN

Technical Assessment — Oktavia Dewi Anggraini

Nama: Oktavia Dewi Anggraini | Jabatan: Market Research Analyst

Skor Total: 80/100

Technical Assessment Report

Name: Oktavia Dewi Anggraini

Role: Market Research Analyst

Score: 80/100

Key skills tested: Quantitative Research, SPSS, Focus Groups

Score Breakdown

| Category | Score (out of 100) |

|-----|-----|

| Quantitative Research | 85 |

| SPSS | 75 |

| Focus Groups | 80 |

| Overall Assessment | 80 |

Strengths Observed

- **Proficient in Quantitative Research:** Oktavia demonstrated a strong understanding of quantitative research methodologies, effectively applying statistical techniques to analyze data.
- **Familiarity with SPSS:** She showed a good command of SPSS software, successfully conducting data analysis and interpreting results accurately.
- **Effective Focus Group Management:** Oktavia displayed strong skills in moderating focus groups, facilitating discussions that yielded valuable insights into consumer behavior.

Areas for Improvement

- **Advanced SPSS Techniques:** While proficient, Oktavia could benefit from further training in advanced SPSS functions, particularly in predictive analytics and complex data modeling.
- **Data Visualization Skills:** Enhancing her ability to present data visually would improve the clarity of her findings and make her reports more impactful for stakeholders.

Overall Recommendation

Oktavia Dewi Anggraini has demonstrated solid skills in market research, particularly in quantitative analysis and focus group management. With a score of 80/100, she is well-equipped to fulfill the role of a Market Research Analyst. To maximize her potential, it is recommended that she pursue additional training in advanced SPSS techniques and data visualization tools. This will not only enhance her analytical capabilities but also improve her ability to communicate insights effectively to stakeholders.
