Technical Assessment — Qori Amelia Putri

Nama: Qori Amelia Putri | Jabatan: Process Improvement Specialist

Skor Total: 83/100

Technical Assessment Report

Candidate Name: Qori Amelia Putri

Role: Process Improvement Specialist

Score: 83/100

Key Skills Tested: Lean Six Sigma, DMAIC, Value Stream Mapping

Score Breakdown

| Category | Score (out of 100) |

|-----|-----|

| Lean Six Sigma Knowledge | 85 |

| DMAIC Methodology | 80 |

| Value Stream Mapping Skills | 82 |

| Practical Application | 85 |

Strengths Observed

- **Strong Understanding of Lean Six Sigma Principles:** Qori demonstrated a comprehensive knowledge of Lean Six Sigma methodologies, showcasing the ability to identify waste and improve processes effectively.
- **Proficient in DMAIC Framework:** The candidate showed a solid grasp of the DMAIC process, effectively outlining each phase and how it applies to real-world scenarios.
- **Effective Value Stream Mapping Skills:** Qori was able to create detailed value stream maps that highlighted key areas for improvement, indicating a strong analytical mindset.

Areas for Improvement

- **Data Analysis Tools:** While Qori exhibited a good understanding of Lean Six Sigma, enhancing skills in data analysis tools (such as Minitab or Excel) would further improve her ability to interpret data effectively.
- **Communication of Technical Concepts:** Developing the ability to communicate complex technical concepts more clearly to non-technical stakeholders would enhance collaboration and project buy-in.

Overall Recommendation

Based on the assessment results, Qori Amelia Putri is a strong candidate for the Process Improvement Specialist role. Her solid foundation in Lean Six Sigma, coupled with practical application skills, positions her well to contribute effectively to process improvement initiatives. We recommend hiring her while encouraging targeted development in data analysis tools and communication skills to maximize her impact within the organization.
