

LAPORAN ASESMEN

Technical Assessment — Tommy Hartono Susilo

Nama: Tommy Hartono Susilo | Jabatan: Data Analyst

Skor Total: 76/100

Technical Assessment Report

Candidate Name: Tommy Hartono Susilo

Role: Data Analyst

Score: 76/100

Key Skills Tested: SQL, Python, Power BI

Score Breakdown

| Category | Maximum Score | Actual Score | Percentage |

|-----|-----|-----|-----|

| SQL | 40 | 30 | 75% |

| Python | 40 | 28 | 70% |

| Power BI | 20 | 18 | 90% |

| **Total** | **100** | **76** | **76%** |

Strengths Observed

- **Proficiency in Power BI:** Tommy demonstrated a strong understanding of data visualization techniques and effectively utilized Power BI to create insightful dashboards.
- **SQL Querying Skills:** He showed solid capabilities in writing SQL queries, particularly in data extraction and manipulation, which are critical for data analysis tasks.
- **Analytical Thinking:** Tommy displayed good analytical skills when interpreting data and deriving meaningful insights from datasets.

Areas for Improvement

- **Python Programming:** While he demonstrated basic proficiency, there is room for improvement in writing more efficient and complex Python scripts, especially in data analysis libraries such as Pandas and NumPy.
- **Advanced SQL Techniques:** Encouragement to explore and practice advanced SQL techniques, such as window functions and complex joins, could enhance his data handling capabilities.

Overall Recommendation

Tommy Hartono Susilo has shown a commendable level of expertise as a Data Analyst, particularly with Power BI and SQL. Although there are areas for improvement in Python programming and advanced SQL techniques, his strengths indicate a solid foundation for further growth in the role. It is recommended to consider him for the position, with the suggestion of targeted training to enhance his programming skills.
